The Daily Gazetteer.

FRIDAY, SEPTEMBER 21, 1744.

From the Camp of the Allies before Coni, *dated* September 9, 1744.

THE Town is inveſted, and to put ourſelves under Cover from all Inſult, as well from the Gariſon, as the Troops without, we are buſy in throwing up Retrenchements, Lines of Circumvallation, and other Works. As there is in the Place a numerous Gariſon, and it is, beſides, well provided with every Thing neceſſary, well fortified, and, at the ſame time, ſtrong by Situation, ſtanding, as it does, at the Junction of the Geez with the Stura, we reckon that the Siege will be of a long Continuance; more eſpecially, as we find it extremely difficult to bring Ammunition to our Camp. We propoſe to employ, in this Siege, 60 Pieces of heavy Cannon, and 15 Mortars. The Infant Don Philip, and the Prince of Conti, have their Quarters at Cara; where the former gave a great Feaſt the Day before Yeſterday, on Account of his moſt Chriſtian Majeſty's having recovered his Health.

Vienna, September 12. The Empreſs Dowager remains conſtantly at Hetzendorf, where the Queen, and the Grand Duke, go ſometimes to viſit her. The firſt Column of the new Corps of Inſurgents, from Hungary, are already arrived at Trenſchin; they amount to about 18,000 Men; they will ſpeedily be reinforced by 6000 more, and then it is believed they will make an Irruption into Sileſia, which will oblige his Pruſſian Majeſty to leave Bohemia; eſpecially if, as we expect, the Saxons ſhould, before that time, have ſent their Auxiliaries to Count Bathiani.

Ratisbon, September 17. The Day before Yeſterday 40,000 Auſtrians march'd from Donawert towards the Upper Palatinate; and there remains ſtill, between Rain and Ingoldſtadt, 32,000 Men of the ſame Troops. The Partizan Geſchrey ſurpriz'd, Yeſterday, in the little Town of Neumarck, a ſmall Party of Auſtrians who were in Gariſon there; the Auſtrians, on the other hand, have taken Poſſeſſion of the Duchy of Neuberg, which they have tax'd at 1,000,000 of Florins; and the City of the ſame Name, tho' a ſmall one, is to pay 100,000 of that Sum. We have certain Intelligence, that the Count *de Gotter*, who was ſent lately from Berlin to Dreſden, declared to the Duke of Saxe Weiſſenfels, that, as ſoon as he began to march towards Bohemia, in order to join his Forces with thoſe of the Queen of Hungary, the Veldt-Marſhal Prince Anhalt Deſſau had Orders to enter Saxony, at the Head of his Corps of Troops, with which he now lies encamp'd near Magdebourg; and, it is thought, the Saxon Troops will not march till they receive freſh Orders from Poland.

Emerick, September 23. A Courier is this inſtant arrived with the important News, that the King, our Sovereign, has made himſelf Maſter of the City of Prague, Sword in Hand; and that all the Gariſon, conſiſting of 16,000 Regular Troops and Militia, are made Priſoners of War. We alſo learn, by the ſame Perſon, that his Majeſty is making the neceſſary Diſpoſitions, in order to meet Prince Charles of Lorrain and the Auſtrian Army, on the Frontiers of Bohemia, to decide the Fate of that Kingdom by a Battle.

Ghent, September 20. General Count de Chanclos, at the Head of 15,000 Men, diſlodg'd, on the 14th of this Month, the French who had taken Poſt at the Bridge of Belem, and ruined all the Works they had been throwing up there. On the 15th the French obliged our People to retire, in their Turn, to Bruges; from whence they marched, once more, back to Belem, the Day before Yeſterday, having been reinforc'd by two Dutch Regiments; but at their Arrival, they found the Enemy were retired to Deinſe. The Count de Chanclos follow'd them immediately, and they are now actually diſtant from each other no more than one League; ſo that we every Moment expect to hear of an Action on that Side.

From the Camp of the Allies near Liſle, Sept. 20.

'General Count Maurice of Naſſau is in a manner recover'd from his Indiſpoſition; however, his Excellency has not yet thought proper to appear in Publick. The Engliſh Field-Marſhal Wade diſpatch'd, a few Days ago, an Expreſs to London, on Affairs of great Importance. It is impoſſible the Army ſhould remain long in its preſent Situation, for want of Forage; and it is generally believed, that it muſt, for the ſame Reaſon, return to its old Quarters near Oudenarde; but we foreſee that, in that Caſe, the French will be upon our Rear; if it be true that they expect, in two or three Days, 27,000 Men from Alſace. However that Matter be, there was held, on the 17th, a grand Council of War; in which it is ſaid, the Engliſh demanded, ſince they were neither permitted to fight, nor to forage, that they might go into Winter Quarters. On the 18th the Troops of that Nation foraged in the Neighbourhood of Liſoin. The Auſtrians and the Huſſars did the ſame Yeſterday; and if there be any Forage in the Neighbourhood, the Dutch are to carry it off to Day. There have been, within theſe few Days, ſeveral ſmall Affairs, in which the Allies have loſt ſome Men, and a great many Horſes. Among the reſt, the French carried off, at the very Gates of Tournay, 200 Men, and 150 Horſes, from the Engliſh, without the Gariſon's being able to oppoſe them.

'P. S. We are inform'd the Winter Quarters are thus ſettled; the Engliſh and Hanoverians to have theirs in Flanders; the Dutch theirs at Tournay, Mons, Aith, Charleroy, and at Bruſſels; the Gariſon of which is to conſiſt of 12,000 Men.'

At Whitby, the Banſtead, Whiting, the York, Robinſon, and the Berwick, Harwood, all from Virginia.

LONDON.

Private Letters from the Hague, dated Sept. 16, ſay, that an Expreſs was arrived there that Morning, directly from Metz, with Diſpatches of the laſt Importance; but whether they regard Peace or War, they do not inform us.

The Imperial Secretary at the Hague having receiv'd an Account of the taking of Prague, communicated it immediately to the French and Spaniſh Miniſters, and had, afterwards, a long Conference with them, in relation to a Memorial that is to be preſented by the Abbe de la Ville, to their High Mightineſſes.

The King of Pruſſia's Subjects, in the Duchy of Cleves, have been ſo much alarm'd at the march of 6000 Auſtrians, who have Orders to take Quarters in that Country, that the Archives, and other Papers of State, are already tranſported to Weſel.

The Prince William, Palmer, from London for Oporto, is taken on the Coaſt of Portugal.

The French Ship brought into Exmouth by the Godolphin Privateer, is called the Victory, from St. Domingo for Bourdeaux.

Capt. Stott, in the Mediterranean Letter of Marque Ship, of Briſtol, lately carried into Bayonne by a French Privateer of 24 Guns, ſix Pounders, 12 Swivels, and 256 Men, ſold his Ship dear, having killed 40, and wounded eight, of the Enemy; neither would ſhe have ſtruck, if the Privateer had not carried away her Main and Miſſen Maſt. The Privateer was ſo much damag'd, as to be oblig'd to return Home to Bayonne, to refit; where Capt. Stott had the Liberty of private Lodgings, but was very ill uſed; being beat and ſtript by the Privateer's Crew. The Mediterranean had 16 Four-pounders, and 48 Men.

We hear, that in Conſideration of the gallant Behaviour of Richard Hornby, Maſter of the Ship Wrightſon and Iſabella, a Collier of Sunderland, in defending his Ship, with only five Men and three Boys, when attack'd on the 13th of June laſt, upon the Coaſt of Holland, by a French Privateer of 10 Garriage and 8 Swivel Guns, with 75 Men; againſt which he defended himſelf for five Hours, tho' boarded ſeveral Times, and at laſt obliged the Privateer to ſheer off, and immediately afterwards ſhe blew up, by a Shot fired into her Stern, whereby all her Crew periſhed; the Lords Commiſſioners of the Admiralty have recommended him to his Majeſty for a Gold Chain and Medal of 100 l. Value, and his Crew to be rewarded with a Bounty of 5 l. to each Man, and 40 s. to each Boy, to encourage others, under the like Circumſtances, to exert themſelves in the Defence of their Ships.

The Ships loſt in the late Storm between Warbergh and Faulkenbergh, in the Cattegate, were the ———, Chappelle, from Liverpool, and the Chriſtian, Holme, from London, both in Baliſt, bound for Gottenburgh; alſo the Goodfreed, Mernell, from Newcaſtle, with Lead, &c. for Steten; the greateſt Part of the Cargo of the latter will be ſaved.

Laſt Sunday Night Mr. Watts, a Printer, was attack'd by three Fellows in Ruſſel-Court, Drury-Lane, who robb'd him of his Watch and Money, and then made off.

Laſt Sunday Morning a Fire broke out in the Bakehouſe of Mr. Knowle, at Digbeth, near the Town of Birmingham, which conſumed the ſame, with a great Quantity of Flour and Wheat, before it could be extinguiſhed.

Yeſterday Dr. Gibſon, Son to the Lord Biſhop of London, Rector of St. Botolph Biſhopſgate, was married, at that Church, to Miſs Loveday, Niece to the Lady Hopkins, of New Broadſtreet; an accompliſh'd Lady, with a large Fortune. The Ceremony was performed by the Biſhop.

Yeſterday the Right Hon. the Earl of Winchelſea, Firſt Lord Commiſſioner of the Admiralty, waited on Admiral Matthews, who arrived at his Houſe in Great Ruſſel-ſtreet on Wedneſday laſt.

Laſt Tueſday the Lord Chief Juſtice Singleton, (of the King's Bench in the Kingdom of Ireland) arrived at his Lodgings in Pall-Mall.

The Parliament is to meet on the 27th of November next, and not on the 1ſt, as was ſaid by Miſtake.

Cargo of the Duke, from Bengal and Fort St. George; arrived on Account of the United Company of Merchants of England, Trading to the Eaſt-Indies; viz.

The uncommon Succeſs, above Forty Years laſt paſt, of the ſo much famed and only true Original

ROYAL CHYMICAL WASH-BALL,

FOR beautifying the Face, Neck and Hands; hath induced many Envious Perſons, not only in every Part of London, but in many Places in the Country, to ſell a Counterfeit White Ball (which may prove prejudicial, as well as ineffectual) in Imitation of the true ones.

To prevent as much as poſſible any Miſtakes in Prejudice to our Cuſtomers, we give this ſpecial Notice, That the True Sort are now ſold only at Mrs. Wharton's Toyſhop, the Blue-coat Boy, near the Royal-Exchange in Cornhill; and by Mrs. Stephens (was Dunn) a Milliner, now removed to the Blue Ball near the Middle-Temple Gate in Fleetſtreet. Price 1s. each Ball, or 11s to the Dozen; but no Allowance for leſs than 12 Balls at a Time, nor will they ever be ſold any where elſe, except Notice be firſt given in theſe Advertiſements of it.

Their true and real Virtues have been ſufficiently atteſted in all the Years that they have been Sold by Publication, and the more ſo, as they are ſtill more than ever uſed and admired by both Sexes of the beſt Quality, and many Thouſands of Gentry and others, for making the Skin ſo delicately ſoft and ſmooth, as not to be paralleled by any Waſh or Waſh-ball, &c. of any Kind or Form; for theſe Balls are indeed real Beautifiers of the Skin, by taking off all Deformities, as Tetters, Ringworms, Morphew, Sunburn, Scurf, Pimples, Pits, or Redneſs of the Small-Pox, and keeping it of a laſting and extream Whiteneſs; they ſoon alter red or rough Hands; are admirable in ſhaving the Head; not only giving a moſt exquiſite Sharpneſs to the Razor, but ſo comfort the Brain and Nerves, as to prevent catching Cold. They are of a grateful and pleaſant Scent, without the leaſt Grain of Mercury, and may be eaten for their Safety.

LONDON: Printed for M. COOPER, at the *Globe* in *Pater-Noſter-Row*.
